

L LASERLINE MFG, INC.

NEW!

THE NEW GL3000PMC GUIDANCE LASER FOR
WING PLOWS

Lets you know where your wing plow trailing edge will be **BEFORE** you get there!

THE SAFER WAY TO PLOW!

**AVOID COSTLY PROPERTY AND PLOW DAMAGE.
REDUCE DOWNTIME.**

WING PLOW GUIDANCE LASER

GL3000PMC Guidance Laser mounted under headache rack

Laser spot showing future path of trailing edge

GL3000PMC "ultra-bright" green Laser shown

Patent Pending

THE SYSTEM

The GL3000PMC Guidance Laser uses an "ultra-bright" green laser spot to establish wing plow trailing edge location before you get there.

The laser spot impacts on the road/snow surface ahead of the truck and shows the driver where the wing plow trailing edge will be. The laser reference spot is on the road and in the driver's normal field of view.

The GL3000PMC Laser is electronically designed for cold weather operation. This laser is coupled to a special

heat source for the exit window to reduce or eliminate ice build-up on the front of the laser output lens.

The GL3000PMC also has a unique pneumatic snow removal system incorporated with the laser housing that automatically fires a blast of air at the front of the laser lens every 5 seconds. This removes snow build-up from the laser output lens.

The GL3000PMC is a class IIIA ultra bright green laser with 5mW of power. Green is most visible to the eye in all

working conditions. The GL3000PMC Laser is U.S. CFR 21-1040 and Canadian IEC 60825 compliant. The GL3000PMC meets all federal U.S. OSHA and Canadian CCOS standards for operation.

The laser housing is weatherproof, and hermetically sealed and dry nitrogen charged for operation in virtually any weather condition.

The systems work directly off the 12 volt side of the truck, and will operate from 11 to 15 volts DC with positive or negative ground.

**Reduces plow and property damage • Reduces downtime for plow repair
Less strain on the operator • Safer**

THE PRODUCT

The GL3000PMC is a versatile all weather product that can also be used for guiding highway paint strippers, asphalt distributors, pavement profilers, or virtually any other vehicle or equipment requiring line control. Use it in the winter and summer for all your guidance needs.

MAIN HOUSING

Weatherproof, containing optic plate mounting platform, micro processor electronics, laser, laser mounting assembly, laser driver board, automatic cooling and heating system, front window is automatically heated to reduce or eliminate icing.

PNEUMATIC AIR BLAST MODULE

Removes snow build up from laser exit window with automatic air blast every 5 seconds.

CONTROL PANEL IN CAB

Allows the operator to turn the laser on and off as well as the deicing and

automatic air blast functions.

20 FEET OF INTERCONNECT CABLE

With waterproof mil spec in-line connector mounted between the laser main housing and the control panel mounted in the cab.

5 FEET OF 12V DC CABLE

Running from control box for connection to vehicle's 12V DC power.

20 FEET OF 1/4-INCH PNEUMATIC HOSE LINE

Complete with connectors for tying into vehicle's secondary air source.

SPECIFICATIONS

Laser: 532 NM Class IIIA Green Laser

Power: 11-15V DC Positive or Negative Ground

Power Draw: 4.0 Amps (Maximum Operating), 0.03 Amps (Sleep Mode)

Operating Temperature: -40°F to +122°F (-40°C to +50°C)

Pneumatic: 120 PSI / 12V DC Operation

Laser Dimensions:

Height: 6 3/8 Inches

Length: 7 7/8 Inches

Width (At Widest Point): 4 1/4 Inches

Cable Length from Laser to Control Box: 20 Feet

12V Power Cable Length from Control Box: 5 Feet

Pneumatic Hose Length (Laser to Air Source): 20 Feet

Shipping Weight: 25 Lbs.

PRICE LIST • WINTER 2008

GL3000PMC LASER SYSTEM INCLUDES:

MAIN HOUSING

Weatherproof and dry nitrogen purged, containing optic plate, micro processor, electronics, laser, laser mounting assembly, laser driver board, and heating system for front window to reduce or eliminate icing.

off as well as the deicing and automatic air blast functions.

20 FEET OF INTERCONNECT CABLE

With waterproof mil spec in-line connector mounted between the laser main housing and the control panel mounted in the cab.

PNEUMATIC AIR BLAST MODULE

Removes snow build up from laser exit window with automatic air blast every 5 seconds.

5 FEET OF 12V DC CABLE

Running from control box for connection to vehicle's 12V DC power.

CONTROL PANEL IN CAB

Allows the operator to turn the laser on and

20 FEET OF 1/4-INCH PNEUMATIC HOSE LINE

Complete with connectors for tying into vehicle's secondary air source.

GL3000PMC GREEN ULTRA BRIGHT LASER SYSTEM COMPLETE

\$2595.00

ITEM	PRODUCT	PRICE
3000-0014	Extra PMC control box with 20' control cable	\$395.00
3000-0023	PMC control box	\$280.00
3000-0008	20' control cable	\$115.00
